

Motorized PCB Depanelizer

LED PCB Depanelizer, CWVC-4S Feature:

- Guide can be adjusted vertically to suit different LED board.
- Clearance between the circular blades can be precisely adjusted by the knob
- Upper and lower circular blades can be reused after regrinding.
- Shape and sizes of the circular blades can be made according to customer's specifications .
- Standard 2.4M Stainless steel platform(could be custom make)
- Lower cutting stress to improve depaneling effect
- Depaneling 2 PCBs at one time, PCB width could be adjustable from(0~12mm)

LED PCB Depanelizer, CWVC-4S Specification:

Model	CWVC-4S
PCB Cutting Capacity	No Limit
PCB Material	FR1, FR4, MCPCB
PCB Width	1-12mm
Working Mode	Automatic or foot switch
Standard Platform	2.4M, could be custom made
