

Wuhan HTDS-V Live Cable Identification Instrument

I. Introduction

This product is mainly used for accurate identification of the site with more cables. In order to overcome Significant power outage or personal safety accident caused by a trial tie error or saw fault cable, greatly improve the efficiency of construction and maintenance, is the common cable identification device upgrading products. This product can be used in DC and AC, more convenient..

II.Features

1. Accurate identification.
2. Big jaw suitable for kinds of cables.
3. Easy to operate.
4. Indicate clear and intuitive
5. The main and auxiliary parts are portable, beautiful and feel good.
6. The whole machine is not afraid of short circuit.
7. Power output frequency can be adjusted.
8. Receiver sensitivity adjustable.

III. Parameters

Jaw size	Internal diameter of closure \geq 125mm
Power	1.0KVA (Intermittent instantaneous)
Recognition method	Determined according the direction of hand swing
Weight	5.8kg
Dimension	300 \times 300 \times 180mm ³
