

QC-653 Oil Bath

Standard

Description

Stainless steel oil tank, inside of tank with heater, liquid circulation system and liquid level protection device, etc. Temperature controller can directly set upon operator's requirement, the max. temperature is 300 °C and according to using conditions to select different liquid as heat media.

Industry

Plastic

Appearance

Specification

Temperature	10 ~ 300℃, PID Microcomputer automatically calculation, +/- 0.3℃ display.
	1. With injection miller to let each part maintain more evenly temperature. 2. Liquid level protection, when the water level is lower than setting, the power will stop automatically. (optional choice) 3. Whole chamber made by Stainless Steel.
Capacity	20L
Heater Power	1800W
Available Space	W400 x 295 mm
Inner dimension	495 x 295 x 150mm (W x D x H)
Outside dimension	650 x 325 x 200mm (W x D x H)
Weight	20kg
Electricity	110V/220V 16A/8A
