

DLQD-X1 Box Type Pneumatic Training System

■ Technical Parameter

- Power unit - air compressor (Basic configuration minicomputers)
- Power source: AC 220V $\pm$ 10% 50Hz/60Hz
- Motor power: 480W
- Nominal volume: 6L
- Rated output pressure: 0.85MPa
- Noise grade: 66dB
- Cabinet size: 470 x 560 x 260mm

■ Optional

- Teaching resources
- Pneumatic simulation software
