

DLMPS-500A Modular flexible production system

■ Overview

- This system mainly consists of five stations, respectively is: distribution unit, testing unit, processing unit, robot handling unit, sorting and storage unit.
- The robot is Mitsubishi industrial robot.
- Mitsubishi PLC control(PLC is optional).

■ Technical Parameter

- Total dimension : 3000×800×1420mm
- Input power : single-phase, three-wire AC220V±10% 50Hz/60Hz
- Capacity : ≤ 2KVA

■ Optional

- Computer, computer table
- PLC module
- Air compressor
