

DLRB-600A Flexible Manufacture System

■ Overview

- FMS has main concept in the teaching, it is "plan - production - test- execute" program to train students, enable students to master the following skills.
- Understanding the mechanical structure and components
- Pneumatic, electrical system
- PLC System
- Network system with PLC
- Electric control system and installation
- Analog and digital signal processing
- Transmission system
- Materials processing and testing
- Robot system
- Process control system

■ Technical Parameter

- Total dimension: 1750×1600×1450mm
- Input power: single-phase,three-wire AC 220V±10% 50Hz/60Hz
- Capacity: < 5KVA

■ Optional

- Computer, computer table
- Air compressor
