Product Detail

Small Size Battery Heat Sealing Machine for Top-side Sealing in Glove Box

SPECIFICATIONS

1 TOB-SFZ-200-S Battery heat sealing machine is a compact heating sealer for sealing aluminum-laminated films during pouch cell (polymer Li-Ion cell) case preparation.

2 The battery heat sealing machine adopts soft sealing bar, The sealing is copper in bottom and aluminum and Silicone rubber piece on top. So it can be used for both top and side sealing for pouch cell.

3 It can prepare the pouch cell for the injection of electrolyte by sealing the side and top of the pouch cell with tab.

4 The controller and working device separate design make the sealing part with small size, suitable for use in glove box with pure Li.
