SCC-2000C Wrapping machine (capping)

Publish time 2018-07-03 14:03

Product description:

PLC programmable control

The top and bottom winding layers, times, over topping time and reinforcement layer number 0-9 can be set directly on the panel.

The operation is simple: the whole packaging process can be completed by pressing the automatic operation button.

A photoelectric switch to automatically detect the height of the goods

Selection of electrical control components, high reliability

Automatic manual switching at any time.

technical parameter:

Machine shape size	2600mm×1500mm×2400mm
L mm	2400mm(可选 2600/28003000/指定)
Turntable diameter	Φ1500mm (可选 1650mm/1800/2000mm 等)
Film width	20"
Gross weight / net weight	470kg/400kg
colour	Blue, dark blue, gray
Film type	280mm≤W≤500mm
Maximum packing height	2000mm
Maximum packing area	1100×1100mm
Maximum packing weight	1500kg
rotary speed	0-13 转/分
Turntable load-bearing	2 吨
Rise and fall of adhesive film	0-3m/min
